

Ad Hoc Re-visioning Committee Report, May 2015

At our September 2014 GPQM meeting, the ad hoc committee had reported on the results of an extensive survey conducted with Friends throughout the quarterly. In summary, the results showed a desire among Friends that GPQM have as a primary goal the nurture of the spiritual life of Friends within its meetings and worship groups. An additional goal would be to encourage fellowship among Friends throughout the quarterly. The meeting approved that the committee would continue its work in the coming year.

This year's Winter Gathering was very well received by Friends, and responses voiced to the event planning committee indicate that Sound Spirituality, led by Mike Green of Durham Meeting, met both of these criteria admirably.

As we enter into the spring, the committee will again reconnect to assess what next steps might be considered to strengthen the work we have begun.
