

LEYM Minute on Abolition of the Death Penalty
2007

Lake Erie Yearly Meeting again calls for the abolition of the death penalty by all states still retaining it, including Ohio and Pennsylvania. We encourage monthly meetings to press the case with renewed vigor through contacts with state governors, legislators, and the news media. In this effort, we encourage Friends to work with like-minded groups such as AFSC, Amnesty International, the American Civil Liberties Union, and state organizations such as the Pennsylvania Moratorium Coalition and Ohioans to Stop Executions.
